

RECEPTION COUNTER

# BIENVENUE

Love your workspace

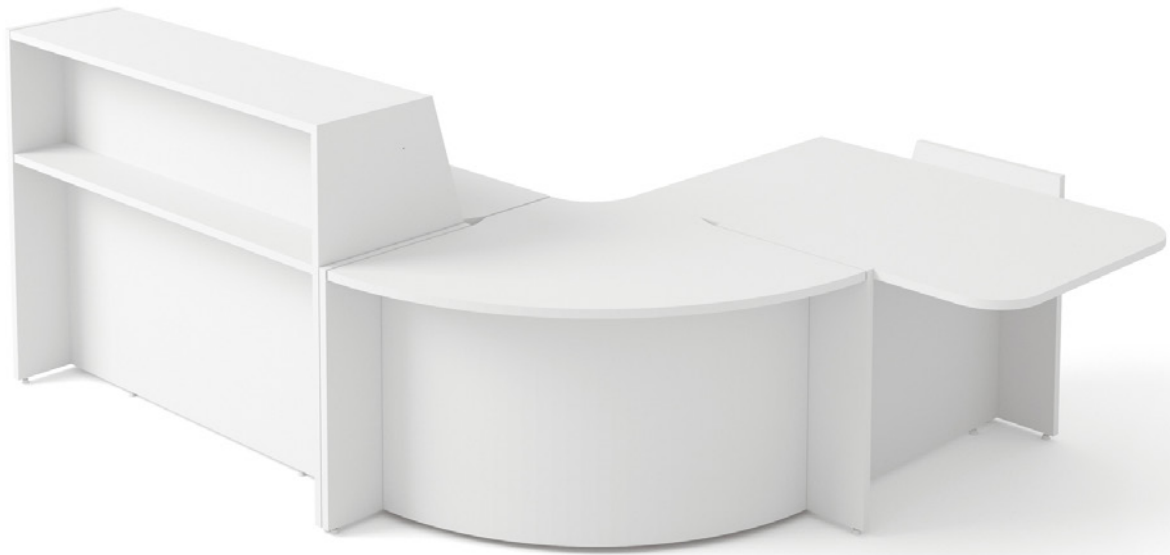

### **A HARMONIOUS RECEPTION COUNTER WITH CURVED LINES**

The Bienvenue reception counter adds a friendly touch to the reception area with its harmonious and effective curved lines. With its simple design, choose Bienvenue to create a functional and efficient reception area.

### **A MODULAR SYSTEM**

With the Bienvenue reception solutions, welcome your visitors in complete simplicity. Composed of high and low, straight and curved modules, with DDA extension for wheelchair users, including storage and cable routing, you can adapt this reception counter according to your requirements and layouts.

High counter with integrated desk-height pedestal for proximity storage

Low counter with DDA extension for wheelchair users

- A low counter with DDA extension for wheelchair users and complying with accessibility standards.
- Modules connected together by metal plates to make the reception counter perfectly stable.
- High counters with a front shelf for visitors to put down their bags or documents without cluttering up the reception desk.
- High counter without work surface offering discrete and handy storage space instead of the work surface.
- Desk-height pedestal which can slide under the work surface for increased storage.
- Counters with cable ports on the sides to feed cables along the reception counter.
- Straight counters with a cable port on the work top to feed cables from the desktop down to the floor.

# FIFTY-FIFTY

Love your workspace

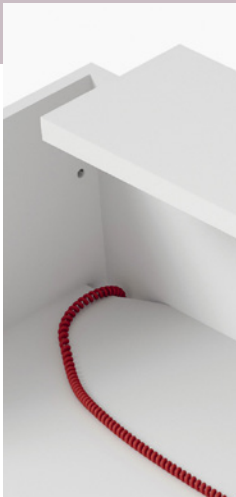

### **PURE, HARMONIOUS LINES**

Designed with a set of two strictly identical panels for the front and the work top and a set of two left and right legs, the Fifty-Fifty reception counter with its pure, harmonious lines can be combined easily to suit your style, receive visitors and work efficiently.

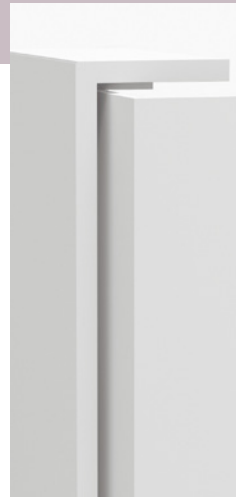

### **AN EFFICIENT WORK COUNTER**

With their rational lines, Fifty Fifty reception desks combine a work surface and a reception top in a single unit. Used individually or associated with other units to create a reception assembly, they adapt to the required confidentiality. Fifty-Fifty combines alternating wood finishes: from front to work surface, from side panel to reception shelf.

Worktop equipped with groove for cable routing as standard feature

Nitech® reception shelf with elegant 45° mitre cut for visitors

- Structurex® counter enhanced by an elegant and imposing Nitech® console.
- Nitech® console acting as reception shelf for visitors.
- Counter designed to accommodate DDA wheelchair users with an extension of the work top.
- Spacious work top with a groove for easy cable management.
- Counters that can be used individually or aligned to adapt to the requirements of small and large companies alike.
- Easy assembly for fast installation.

# FIFTY-FULL

Love your workspace

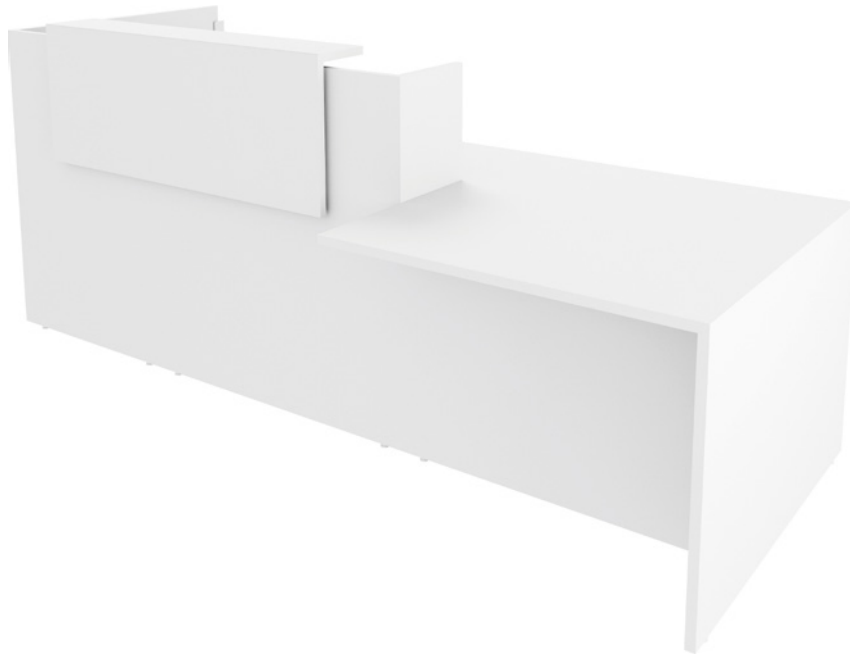

### A MODERN AND UNIQUE DESIGN

The pure lines define the style of the new Fifty-Full reception counter, the extension of the Fifty-Fifty. A true communication platform, the modern and functional Fifty-Full gives the reception area a distinctive style.

### ENHANCED MODULARITY, MORE COMFORT

Numerous configurations possible with Fifty-Full. Equipped with high and low modules, this new reception counter is especially well-suited to welcome seated visitors for longer periods of time. It also complies with European standards for wheelchairs users (DDA).

Support square leg at the junction of the tops and connection kit of modules

Reception shelf for visitors, with elegant 45° mitre cut

- A reception counter with thirteen modules to create the reception counter adapted to the environments of small and large companies alike.
- A console acting as reception shelf for visitors, can be fitted with LEDs.
- A reception counter designed with work tops intended for DDA wheelchair users.
- Spacious work tops equipped with pre-drilled grommets holes for easy cable management.
- Quick and easy assembly thanks to the connection kit simplifying alignment of the modules.

# RIVAGE

I love your workspace

### A BRIGHT FACADE

The Rivage reception counter boasts proud lines, with the massive geometry broken by the wavy lines of its bright facade. Demonstrating extensive joinery skill, Rivage combines two panels of different thicknesses and colours with an elegant mitre cut. Rivage is a fine decorative unit which gives the entrance area of small companies an immediate impression of prestige.

### CUSTOMISATION POSSIBILITIES WITH THE LIGHT EFFECT OF THE LEDS

Rivage offers a range of contemporary finishes. The light effect of the LEDs offers customisation possibilities to add prestige to the reception area and make the work top more functional, with good lighting.

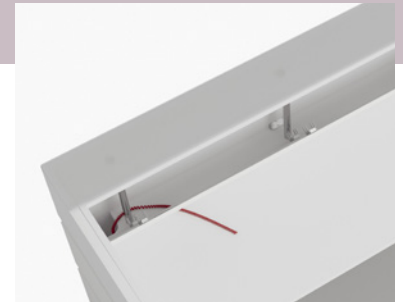

Worktop ingeniously equipped with a full width panel for easy access to cables

Elegant, thick Nitech® facing, white gloss lacquer effect finish and mitre cut, enhanced with LED lighting

Reception counter with satin finish tempered glass shelf

Cable routing at the corners of the worktops

- Combination of white gloss finish Nitech® and Structurex® panel in coloured or wood finishes.
- Technical unit for cable management, allowing discrete cable routing from the work top down to the floor, equipped with a removable panel with two chrome-plated handles for easy access to the connections.
- Technical unit large enough to contain several power outlet strips and electrical transformers for quick and easy connections.
- Can be customised with LED lighting of the waves and of the inner shelf to add prestige to the reception area and make the work top more functional, with good lighting.
- The LEDs can be easily installed thanks to plastic rails pre-equipped in the factory embedded in the edge of the waves or in a groove of the Structurex® shelf. Quick and easy assembly by sliding the pre-dimensioned LED strips into their rails.
